TITANZ

Rise to the occasion

Automatic male pleasure devices

VIRILIS FORTITUDO

TITANZ is made for men who know that strength is never one-dimensional.

Virilis Fortitudo means male strength. A concept that holds more than is often understood. From the earliest philosophies of masculine virtue to the later ideal of l'uomo universale, strength was understood as more than force alone. It encompassed physical power, intellectual awareness and even heightened sensitivity. Both instinctive and considered. Forged in character, grounded in self-awareness and driven by the desire to develop, discover and accomplish. It is an idea of masculinity worth remembering. And a philosophy of strength worth revering and reviving.

TITANZ captures that timeless, layered masculine energy and harnesses it for contemporary needs.

Strength with Sophistication shapes the character.
Power with Precision drives the performance.
Drive with Direction intensifies the intent.
Need with Nuance heightens the experience.

Because true accomplishment is not simply about force. It comes from knowing how to wield it. With control, accuracy and refinement. Knowing what you want, where you want to go, and how you want to get there.
That is how you wield your TITANZ.

TITANZ is built on a simple belief: true strength is about more than power alone.

Designed for men who know exactly what they want, this collection combines intensity with precision, control and sophistication - taking male pleasure to new heights with more ways to shape, direct and refine the experience. From automatic suction and squeezing to rotation, thrusting, vibration and heat, each TITANZ machine brings its own distinct combination of sensations. Multiple modes, speeds and rhythms put the experience firmly in your hands, while features such as removable ribbed sleeves, rechargeable power and strong motors are engineered for intense, versatile performance.

The five machines create a line that goes beyond offering different products. They provide different routes to pleasure; from focused single sensations to more advanced combinations.

Whatever drives you, TITANZ puts you in control of where it takes you.
