**TITANZ is built
on a simple belief:
true strength is about
more than power alone.**

Designed for men who know exactly what they want, this collection combines intensity with precision, control and sophistication - taking male pleasure to new heights with more ways to shape, direct and refine the experience. From automatic suction and squeezing to rotation, thrusting, vibration and heat, each TITANZ machine brings its own distinct combination of sensations. Multiple modes, speeds and rhythms put the experience firmly in your hands, while features such as removable ribbed sleeves, rechargeable power and strong motors are engineered for intense, versatile performance.

The five machines create a line that goes beyond offering different products. They provide different routes to pleasure; from focused single sensations to more advanced combinations.
